## Long Range 3D Scans

Accurately capture the as-built dimensions of almost any physical structure faster, **more accurately and more economically** than any traditional measurement tool can. Using our Long Range 3D Scanning technology Arrival 3D can **capture an object's compound surface curvature, draft and high-density geometry with an unparalleled degree of accuracy** and provide you with a digital model of it in minutes.

Our clients rely on us to provide data on large-scale structures and areas that include: bridges, buildings, factories, golf courses, lay-down yards, planes, power plants, and many others. And 3D scans can be taken almost anywhere, at virtually any time.

Want to learn more about what we can do for you? You can use our handy **"Ask for a Quote"** tool to the right of this page to get an answer to any questions you might have in less than 24 hours. Or you can **call us right now at 1-866-687-7784**.

### What are the applications and benefits?

Odis et dolorehende coribusamus, to to voluptis acerferuptae quisqui dolupta natendi tatibus et asimolum ad maiorest venis endicienda quam accumque ad maiorest nobisciur,

### What industries use it?

Odis et dolorehende coribusamus, to to voluptis acerferuptae quisqui dolupta natendi tatibus et asimolum ad maiorest venis endicienda quam accumque ad maiorest nobisciur,

### Tell me about the deliverables?

Odis et dolorehende coribusamus, to to voluptis acerferuptae quisqui dolupta natendi tatibus et asimolum ad maiorest venis endicienda quam accumque ad maiorest nobisciur,

### Arrival 3D Also Offers:

- 3D Scanning Airplanes, Helicopters and Aviation Parts
- Boiler/Furnace Inspection
- Bridge Scanning
- Car, Truck, Motorcycle and Other Vehicles
- Cell Tower Scanning
- Contact and Non-contact Inspection Services
- CT Scanning
- Golf Course Scanning
- Historic Window Scanning
- Orthopedic and Prosthetics Scanning
- Scanning for Power Plant Scrubber Installation
- Stockpile Scanning
- Tank Scanning and Inspection

At Arrival 3D we can provide you with **fast, accurate solutions for all your 3D scanning needs anywhere in the US**. **Call us for a quote today 1-866-687-7784** Or **click the "Ask for a Quote" button** to get started right now.

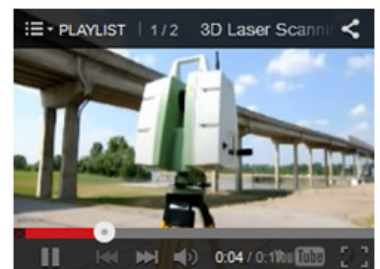

We'll help you find the solution that's right for you.

# Arrival Secondary Page Architecture: Option 1

## Product Specific Image

A large landscape-format image specific to the product represented on the page. In some cases this image may not be as specific as desired. In this case we will choose one that is as close as possible, but different from other images used in this place on other pages.

## Identity Block

The information in the Identity Block helps visitors establish that they are in the right place when they arrive on the site. Information on the Arrival.com website includes the Arrival logo and the “3D Scanning Services” tagline.

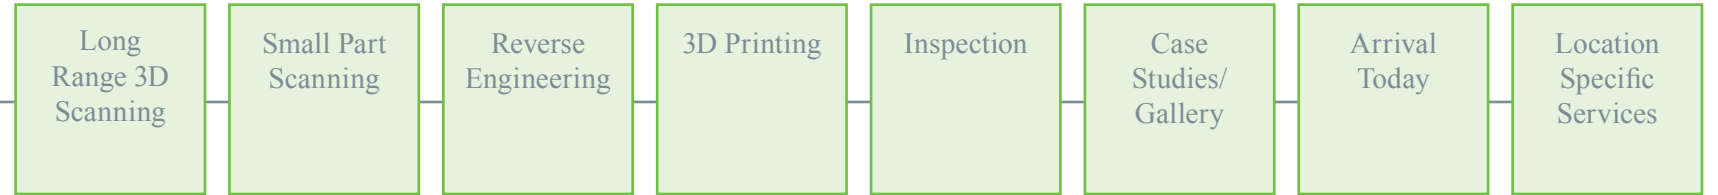

## Support Copy

Support Copy contains product information beyond initial marketing messaging. Links included in Support Copy: What “Product” Is, Applications Industries, Deliverables, Related Products, any other product related items.

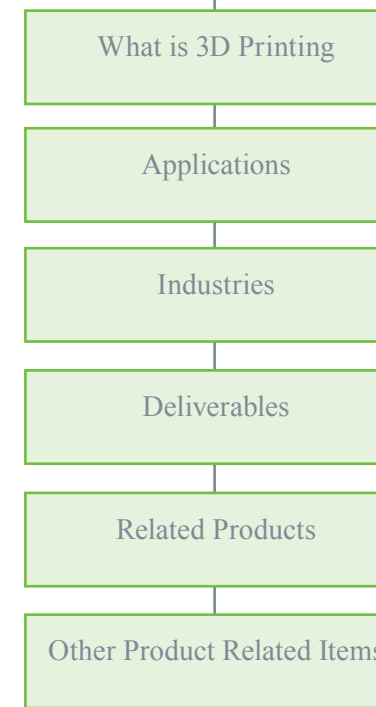

## Footer

The Footer Block includes links to: Current Events, Glossary, Arrival Team, FAQ’s. It also includes copyright information for the site.

## Main Navigation

The site’s main navigation will include links to product specific version of the pages included above.

## Primary Drop-down Navigation

Each of the Product Pages in the Main Navigation—Long Range 3D Scanning, Small Part Scanning, Reverse Engineering, 3D Printing, Inspection—will have drop-down menus that provide these links. (This information may also be repeated in bullet-point form in the Support Copy section of the messaging block.)

## Ask For Quote Block

This block includes a form that will allow visitors to ask for a direct quote from Arrival. It serves as the main response device for the site and will be repeated on all pages.

## Rotating Teaser

This block features rotating messages about Arrival 3D’s other services. It is designed to make visitors aware of services beyond those featured on the page they are currently visiting.

## Support Information

Any support information that is relevant to this page’s specific product will go here. Support Information can include: maps, images, product specific videos.

## Social Block

This block of information includes links to Arrival’s social networking pages. Included in the block are links to: Facebook, Twitter, LinkedIn, You Tube.

## Secondary Drop-down Navigation

A second drop-down menu from the “Related Products” tab of the Main Product Drops Down menu will provide links to the site’s secondary product pages. These Secondary Products will include, but are not limited to:

- 3D Scanning Airplanes, Wings, Helicopters and other Aviation Parts
- Boiler/Furnace Inspection
- Bridge Scanning
- Cell Tower Scanning
- Contact and Non-contact Inspection Services
- CT Scanning
- Golf Course Scanning
- Historic Window Scanning
- Point Cloud Modeling
- Scanning Cars, Trucks, Motorcycles and Other Vehicles
- Scanning for Power Plant Scrubber Installation
- Scanning for Orthopedic and Prosthetics
- Stockpile Scanning
- Tank Scanning and Inspection

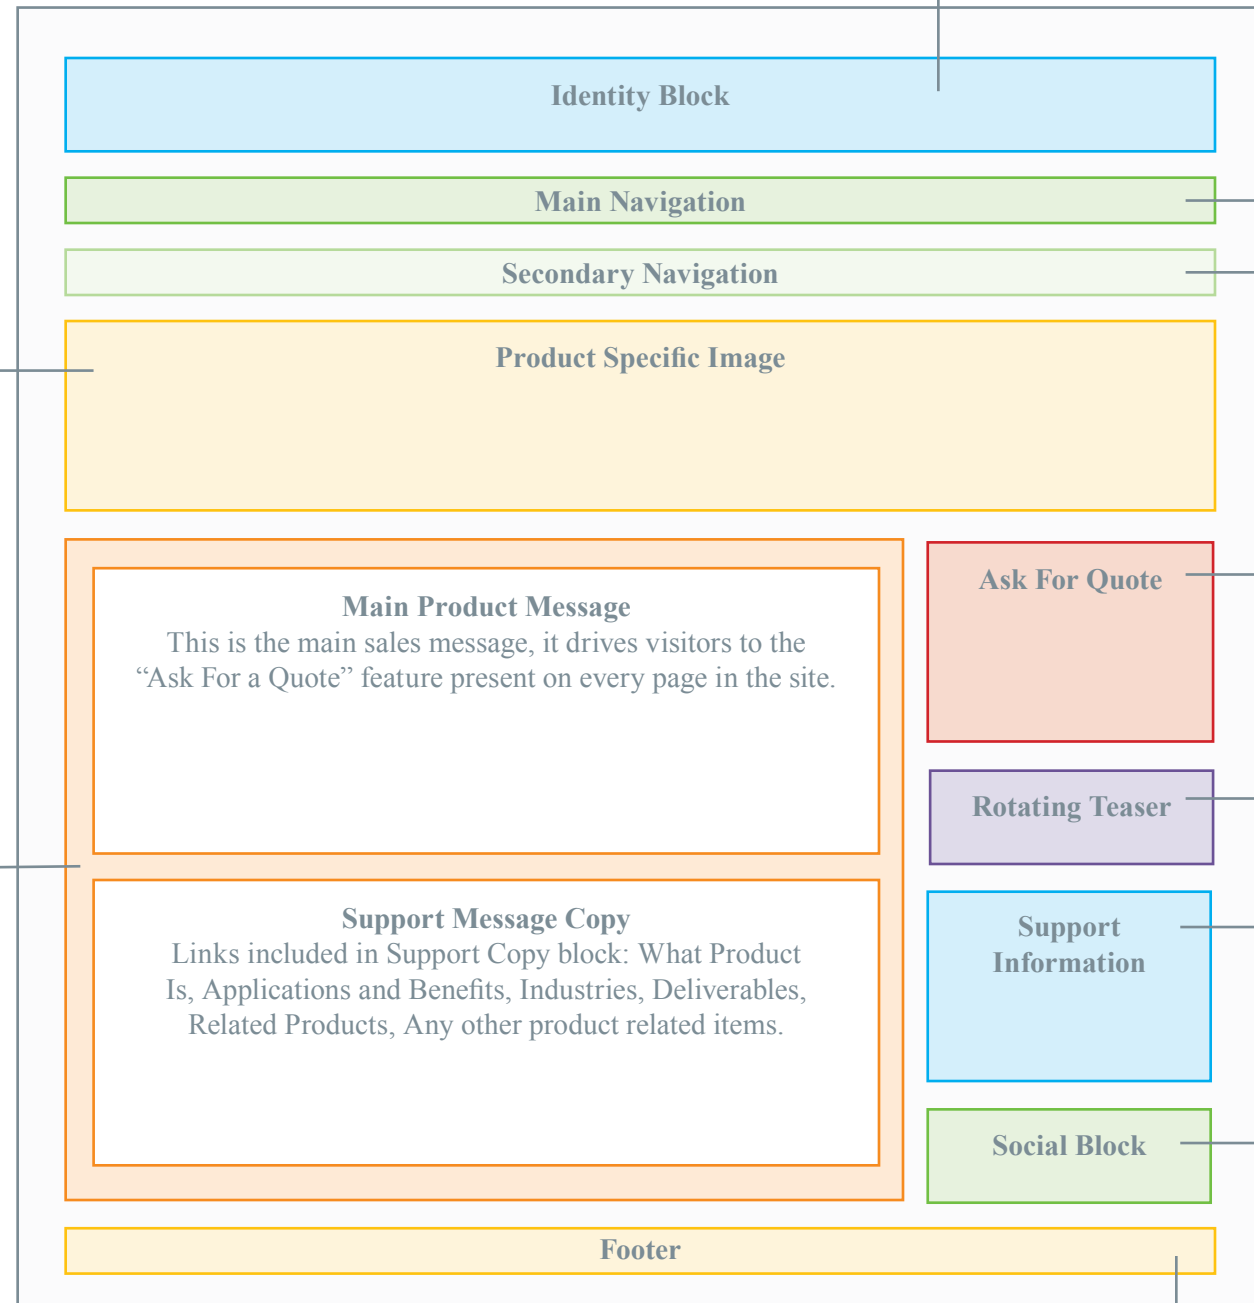

# Arrival Secondary Page Architecture: Option 2

## Product Specific Image

A large landscape-format image specific to the product represented on the page. In some cases this image may not be as specific as desired. In this case we will choose one that is as close as possible, but different from other images used in this place on other pages.

## Identity Block
